

Servicing 24/7

It begins with that first call...

The Strad team are professionals that understand your needs and wants and are here to answer questions and provide knowledgeable and flexible solutions that best meet your project scope. Our experienced Sales and Logistics teams are available around-the-clock to serve in the most efficient manner.

Keeping projects on time and on budget...

Strad always aims to please and ensure your project starts on time on and stays on budget. We know how to execute a job safely and avoid costly delays. For setups, we will arrange our service crews, all logistics with all equipment ready to go based on your schedule.

With you along the way...

Our trained service technicians visit project sites regularly to do equipment inspections and to perform preventative maintenance to ensure operating efficiency and minimize downtime.

And finally, follow through...

Strad works to clean up sites with better care than the condition we found them in and hand off with timely, accurate paperwork.

For Strad, it is important that you are satisfied throughout the whole process.
